

Inspiring Possibilities

SNOEZELEN ROOM

The Snoezelen Room is a therapeutic and recreational room beneficial to people with sensory, cognitive and physical disabilities.

The Snoezelen Room provides a fun, recreational and multi-sensory, environment for people with disabilities that provides stimulation and relaxation through the use of smell, touch, sound, color and light.

It is beneficial for cognitive, sensory and physical disabilities and promotes relaxation or stimulation. It involves a range of sensory stimuli and experiences to absorb, explore, and control in an accessible environment.

Trust and relaxation are encouraged in the Snoezelen Room by providing the space, time and access to

enjoy sensations. In a safe, comfortable environment, primary senses are stimulated by music, lighting effects and gentle vibrations. Positive effects extend to other settings and stimulation and interaction leads to improved communication.

Everybody needs relaxation and enjoyment, including people with disabilities.
